I have voluntarily appeared at the Chicago office of the Federal Bureau of Investigation U. S. Department of Justice of my own free will. I have been questioned in regard to official business, and I understand that I have at no time been under arrest.

I've been shown a picture of Volney Davis and swear I do not know ~~him~~ I do not know this person, and at no time sold or furnished him or any other person a 1985 Ford V8 Coupe. I've also been shown a photograph of Eric Raydon Bolton and likewise do not know him.

The twenty-eight of Sept. I saw

is visiting in Albany also, where the
money was passed. There is a
peculiar reason why I suspect her
and they are friendly with Bunnhoff.
Her son-in-law is named Ferguson
and I conclude is not of their kind.
Bunnhoffs and the Johnsons are
'beggars' altho they are on the
other side when it gets to their
wanting political offices. I and
many have no time for them. Her
son was once defeated. Bunnhoff is
a candidate in the coming election -

Ferguson is honest - appearing well-

collar. She and her blonde daughter are somewhat fleshy but the mother has a thin face, talks with hard Swedish accent, the daughter speaks slowly softly and with a sarcastic note.

I am certain this Moran called on Bumbyloff and as with the Lindbergh case it was but a common person not a gangster so far in it. I also understand in that case Frisch who died in Germany had some of the ransom money or such could be handled by not the actual kidnapers but fences to pass same.

INSTRUCTIONS.

Section 18, Page No. 88, Acts of 1921 (Extra Session), provides that 90 days after the Acts shall become effective, a CERTIFICATE OF TITLE issued by the Secretary of State must be obtained before registration tags can be secured. It will be unlawful to have in one's possession a motor vehicle or motorcycle for which a Certificate of Title has not been issued. Application for Certificate of Title must be made upon this form and must be accompanied by a title registration fee of One Dollar (\$1.00). Such Certificate is good for the life of the motor vehicle or motorcycle, or until it is sold to another person. In case of the sale to another person, the Certificate of Title must be assigned by the vendor to the vendee, and such assignment must be presented to the Secretary of State with an application on this form and a fee of \$1.00 and the purchaser secure a new Certificate of Title before license tags can be issued to the purchaser. The Certificate of Title need not be carried on motor vehicle. It should be kept in a secure place, as are other valuable documents, since after once issued its possession will be necessary to prove title, and its assignment necessary to sell a motor vehicle.

PENALTY.—"Any false statement in this application is a violation of the law and may be punished by fine or imprisonment or both."

Gentlemen:-

We have prepared a survey for a service station location which we are herewith submitting for your consideration. Our material is from authoritative data and can easily be verified.

The desirability of this site has been evidenced by the numerous attempts that have been made to obtain it in the past years. It has not however, been available until the present time.

We are prepared to lease it to the company finding it most favorable for their purpose.

The details of the lease could be discussed in a personal interview at your leisure.

Very truly yours,

STUDY OF LOCATION OF PROPOSED
SERVICE STATION-SITE.

This property is located in Cicero, at the intersection of Austin Blvd. and West 16th St. (N. W. Cor.) being a double section line corner having a frontage of 93 feet on Austin Blvd. and 126 on West 16th St. Both thoroughfares are arterials or thru streets having four sets of red, green and yellow "stop and go" signs on the respective corners.

These statistics are gathered for the purpose of showing that a complete service station could operate here successfully.

Twenty-second street, the main East and West artery through the town, affords little parking space, as well as a continual congested condition of traffic so that many motorists would prefer to come to this location for any, or all of the following services:

Gas and Oil	Car wash
Tires	Greasing
Batteries	Ignition

Ample size of lot would permit a station providing all these facilities if it would be so desired by tenant.

The map included herewith shows that no other station exists on Austin Blvd. for a mile in either direction from this location. No other favorable location is available and probably never will be.

West 16th St. has a total of 5 stations within the town limits, but would offer practically no competition for this site.

The North West Corner is the preferred location for service stations as is evidenced by its choice in other locations where a choice exists.

Conclusions

The N. W. Corner of Austin Blvd. & W. 16th St. is not only ideal in size, favorably situated, but also fronts a double section line corner with two of the town's thru thoroughfares both traversing it from end end to the other. In addition this corner is the heart of a built up neighborhood affording a good prospective home trade as well as a huge volume of transient trade drawn from...

STUDY BEARING ON THE TRANSIENT TRAFFIC POSSIBILITIES

the corner of Austin Blvd. and W. 16th St. This is an average
count of a three day survey (week day) completed Wed. Oct. 25, 1933

TRUCKS NOT ALLOWED ON BLVD.

This gives an hourly grand average of 705 passenger
cars and 45 trucks per hour passing the corner of Austin Blvd.
W. 16th St. between the hrs. of 7:00 A.M. and 7:00 P.M. only.

The observation showed that the peak hours were from
7:30 A.M. to 9:00 A.M. and in the afternoon between 4:30 P.M. and
6:00 P.M.

The count was taken after 7:00 P.M. but the traffic
continues heavy until after midnight.

An important factor to note is that Austin Blvd. and
Cicero Ave. are the only thru thoroughfares in the town connecting
Ogden Ave., a Federal Highway, with the Northern limits of the
City of Chicago.

Conclusion:

Altho the volume of traffic at Austin Blvd. & W. 16th St. is less than, let us say Austin Blvd. & 22nd St. yet the potential customer possibility must be considered greater. 22nd, the Main Artery must be considered a one way street due to the width of pavement and the ill-kept condition of the street railway tracks. Therefore, from the standpoint of transient patronage this corner compares favorably, and probably excels any other in the town of Cicero.

STUDY REPHASING THE NEIGHBORHOOD
PATROUAGE POSSIBILITIES

The section of Cicero shown on the map that is bounded by 12th St. on the North, 22nd St. on the South, 56th Ave. on the East and 62nd Ave., the town's limit, on the West is known as the "Warren Park District". This is the "cream" of the town for service station customers. The entire district is built up and consists of residences and two and three story apartment buildings.

The postmaster of Cicero, Dr. E. J. Shala, reports (Oct. 25, 1933) that 4200 families reside in this area.

The map will show that Austin Blvd. and W. 16th St. is the heart of this desirable section.

Surely 22nd St. with its mass of traffic and lack of parking facilities would offer no inducement to these residents if a suitable service station existed at Austin Blvd. and W. 16th St. for their convenience.

From a close study of the statistics gathered as to the number and kinds of stations already existing in Cicero it will be noted that only five out of the 74 service stations sell gasoline of inferior quality. This is positive proof that the residents of this community are interested in the best brands of gasoline and oils, and that this community would appreciate and patronize a high grade complete service station.

Conclusion:

It would be unnecessary to stress the wonderful possibilities for neighborhood trade further except to mention that Austin Blvd. & W. 16th St. is not only the heart of a wonderful district in Cicero, but that it is one of the most central thoroughfare corners of both the towns of Berwyn and Cicero.

In addition to the neighborhood business the transient trade would help to swell the total considerably.

POPULATION AND GENERAL STATISTICS
OF THE TOWN OF CICERO

The U.S. Census figures prove that Cicero is the most rapidly growing community in the State of Illinois. It ranks fourth as a municipality. The actual figures in the Census Report show 1910-14, 557, 1920-24, 995, 1930-34, 602.

No later Census figures are available but the April election 1932 shows 27,033 voters, an increase over any previous election. This indicates that the population is increasing in contrast to other industrial centers where populations are diminishing since the start of the depression. Further proof of an increase is the statement of the Superintendent of High School, Dr. L. Hruska, who reports a steadily increased enrollment since 1930.

Passenger car licenses have decreased somewhat although there are still 10,615 licenses in the town. The licensed trucks total 2013.

There are at present 61 industrial plants in operation within the town's limits employing a total number of Cicero residents of 14,320 with an annual payroll exceeding \$12,000,000.

In addition to Cicero's stability as an industrial center the nature of the population is an important factor. The residents are largely foreign born or of foreign extraction. They come from races producing frugal, thrifty, home-owning, family rearing citizens.

Bad as the banking situation is throughout the country Cicero still has three banks that weathered the storm with total deposits of \$3,280,977.74 and Capitalization of \$950,000.00. These figures are as of June 30th, 1933.

Conclusions:

The foregoing would indicate that this community has not suffered as extensively in any respect as others have in this or adjoining states. Its ever increasing population is made up of thrifty hard working element whose patronage continues in spite of depression and whose future consumption will increase greatly at the first sign of prosperity.

ADVERTISING ADVANTAGES

Companies interested in serving the motorist are at the same time interested in the advertising possibilities of the location.

No corner in the town of Cicero offers a better opportunity for that purpose than the corner of Austin Blvd. & E. 16th. St.

The usual display of billboards and miscellaneous advertising existing along the usual thoroughfares have no place in this vicinity.

Any advertising would be greatly intensified at this corner, because it would be so outstanding among the neighborhood surroundings. The electrically operated "Stop and go" signs give the halting motorists an opportunity for an unobstructed view and would acquaint him with both the advertised products, as well as the station itself.

Conclusion

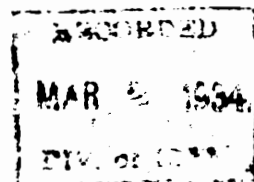

Because of the lack of distractions and obstructions and because of the prominence of this corner, its value from the standpoint of advertising value alone should be given due consideration.

KIDNAPING

Dear Sir:

Receipt is acknowledged of Bureau letter dated
November 5, 1935, in the above entitled case, Bureau file #7-576,
requesting that the signatures of C. H. Charles and Mr. and Mrs.
William Woods at the Charleston Hotel, Charleston, S. C., be for-
warded to the Bureau for comparison with the handwriting of William
Kilmer Woods.

Please be advised that the report of Special Agent
L. E. Lockie, Charlotte, N. C., dated August 14, 1935, transmitted
to the Cincinnati Office only tracings of these signatures and not
the original registrations. These tracings are transmitted herewith
to the Bureau in accordance with the request in the letter of reference.

Very truly yours,

H. E. CONNELLEY,
Special Agent in Charge.

cc St. Paul
Chicago
Charlotte

Additional specimens of the handwriting of C. H. Charles and the tracings of the handwriting of Mr. and Mrs. William Woods from my file folder are being sent to the Bureau for comparison with the handwriting of William Kilmer Woods. These were secured in order that the Bureau might be able to identify the handwriting of the fugitives. The original registrations of the handwriting of C. H. Charles and the tracings of the handwriting of Mr. and Mrs. William Woods are being retained in my file folder.

Dear Sis.

In all probability you think you are lost from us, & as far as law & order is concerned you are or seem to be.

But! Wynona, it looks to me as though some time or other you would look back to the way Papa & Mama tried to raise us kids and sacrifices they were forced to make for us. Oh! why; didn't you turn that dirty scum up when you could have redeemed yourself & not cast a reflection on your Bros & Sisters. If my informant is correct you have plenty of time to think now, with little else to do, & as your eldest Bro am asking you to think of the way the world looks at us, when you occupy a space with such as Karpis & Campbell & Daleros. You cant know the grief you are causing us.

What, in what? do you think Almighty God feels & thinks when we offer our supplications in your behalf. Will he listen or will he say, Depart from me you workers of Iniquity I know you not.

What will my Christ & your Christ say when you are called before the Bar of Judgment & he opens the record & finds Wynona Burdette

Associations - ? ? ? ? etc etc

Character - ? ? ? ?

Reputations - In part responsible for parents early demise. Grief & persecution to those of her family who were my servants. Every deed is recorded (probably none that humans know not) But! My Christ says, All manner of sin will be forgiven thee, Except sin against the Holy Ghost.

Listen little Sister think of these things & pray Christ to help you to an about face from worldly things. He alone can help you. We're praying for you.

Your Bro with lots of love
Aaron.

Attached at the top of this letter was a yellow card that inches printed as follows:

THE WAGES OF SIN IS

DEATH

But the gift of God is eternal life through Jesus Christ our Lord.

Rom. 6:23

(over)

The reverse reads: When the doctor tells you not to do certain things or it will cause your death, you take his advice, but when God says, THE WAGES OF SIN IS DEATH, you pay little or no attention.

The world today is blinded in sin. Howland Hill said, he saw a man leading a hog to the slaughter house, dropping her and there as he went, grains of corn. He said when he saw it, he thought of how satan was leading people to that slaughter house of his by dropping here and there as he went worldly pleasure.

Dear Sir

Will you please hand this letter to Wynona Burdette. Am hoping by the time this lies on your desk we will have Campbell. We are told he is only a few miles from home at a friends. & we are waiting Federal men from Tulsa to find out.

The latent print attached marked A1-2 C1-2-34 D1-2 ^{has} have been searched in the Single Fingerprint Section and no identification has been effected.

The latent print attached marked A1-11-B1-C1-10-D1-19 ^{is} are not identical with fingers any of the suspect attached, namely:

| (3) <u>Werner Hanni (Special Agent)</u> | (6) _____ |
| <u>Chas. J. Tierney</u> | |

Remarks:

The above listed latent prints have been compared with the latents of the Boettcher (Thames, Colo.) case, and although no positive identification was effected, Boettcher latent #69 and Bremer latent #D2 presented great similarities. Identification was prevented by the lack of sufficient identical characteristics in the limited areas.

Latent fragments marked C5 and C6 are identical with each other.

Latent prints marked D1 and D3 are identical with each other.

Latent prints marked A8 and C3 are probably identical with each other.

The above listed latent prints have been searched through the unidentified kidnapping latents and no identification has been effected.

St. Paul Division Office

re: Unknown Subjects: Adolph Bremer, Sr., Victim.

On the letter postmarked Rock Island, Ill. March 6, 1934, addressed to Mr. Adolph Bremer, Sr. approximately six prints of value were developed on the envelope and two on the letter, none of which was susceptible of classification and search in the S.F.P. files. In addition, two palm impressions were developed which would be of value for comparison with

It is suggested that the finger and palm prints of persons who known to have handled the letter be requested for purposes of elimination.

No further action will be taken until additional information or evidence is submitted.
